Data & Images

PROVIDING PROFESSIONAL SERVICES IN DIGITAL DOCUMENTS, DATA AND IMAGING

Range of solutions offered in Documents, Data & Images

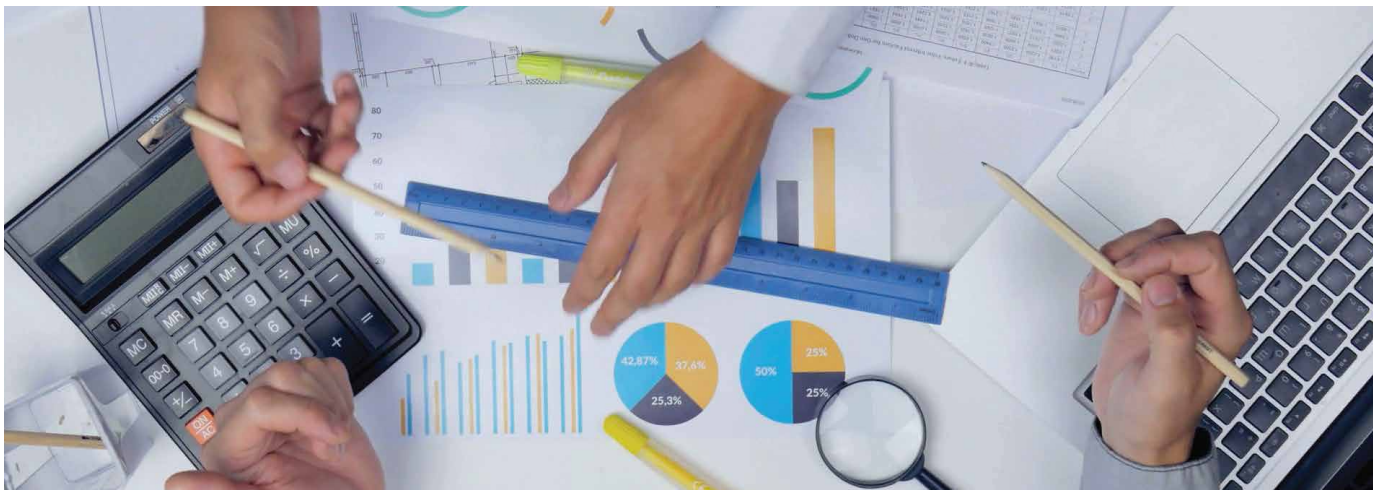

Digitaledge India has created a niche for itself in the 'e' services space. Ranging from complex data extractions, managing document scanning projects, providing litigation image capture, converting images to PDF/A; projects have been successfully delivered. Providing innovative and customised services has been the key to our success.

- Experienced data entry for archiving services
- PDF/A conversion with legal hold services
- PDF Technology value added services

- 1 Data Extraction/Entry Services** for digital archiving. Implementing an archiving solution or outsourcing bulk conversion services for your document management system.
- 2 Scanning & Indexing with Legal Hold.** Your scanned documents should have legality embedded at the time of capture or else it is not good enough for the courts.
- 3 Scanned PDF Documents** need to be optimized for performance. We provide Linearization, Compression, Bookmarks, Hyperlinks and such other compiling activities, besides OCR for content search.

Unit in Bengaluru, India has built its business to provide:

Superior Competency from the experts | Utilization Improvement for faster TAT | Factor Cost Advantage of Indian Offshore Business Risk Mitigation
